
CC&C Personal Device Onboarding

Please follow these steps for connecting to our new wireless network as well as installing Telmediq – our new secure messaging application.

CONNECT TO WIFI

- Mobile Iron users already have this access.
- If you don't have Mobile Iron, be sure to remove any previously connected MultiCare wireless networks stored in your device (including mhs.public, mhs.employee, mhs.guest, etc.) before scanning this code.
- Scan this code with your camera app while at a MultiCare facility.
- Follow on-screen instructions to connect to the network.

Note: Not all personal devices may be compatible with this network. If you have connectivity issues please switch to your cellular service or connect to the 'mhs.guest' wireless network.

Android

INSTALL TELMEDIQ

Apple
Requires iOS 11.0 and watchOS 4.1 or later. Compatible with iPhone, iPad, and iPod touch.

- Scan the appropriate code with your camera app while connected to the internet.
- **Login:** username@multicare.org

Note:

- Content within this application is discoverable.
- Orders should not be placed in this application – per standing MHS policy.

[CLICK HERE ANDROID](#)

[CLICK HERE APPLE](#)

Standard MultiCare acceptable use policies apply while leveraging either resource.

Questions?

If you have any questions or concerns, please contact the Service Desk (253) 403-1160 or email 'mobilesupport@multicare.org'.
